

ROCKWELL COLLINS, INCORPORATED  
RICHARDSON, TEXAS

**Rockwell Collins, Inc., of Richardson Texas**, manufactures products for Government Systems, such as radio communications, global positioning and radio navigation systems, modular avionics, flat panel displays, cockpit and flight management systems, and joint tactical data links for air, ground, sea, and weapons systems. Rockwell Collins has several facilities in the Performance Track program. This facility is also ISO14001 certified.

#### ENVIRONMENTAL PERFORMANCE

**AT A GLANCE:**

Industry Sector:	NAICS 33429
Business:	
Employee Facilities:	500-1,000
Achievements:	Reduced total energy use Reduced total solid waste
Commitments:	Increase recycled materials use Reduce total solid waste Reduce energy use Reduce water use
Address:	3200 East Renner Road Richardson, Texas 75083
Web site:	<a href="http://www.rockwellcollins.com">www.rockwellcollins.com</a>

#### *Past Accomplishments*

Rockwell Collins has demonstrated its commitment to environmental performance through reduced total energy use and total solid waste. Since 1999, the facility has:

- **Reduced total energy use** 24% by installing an environmental management system to control lighting and chilling, as well as installing energy efficient lighting and sensors to monitor when lighting is not needed.
- **Reduced total solid waste** 59% by increasing the types of materials to be recycled and through educating employees on the all materials to be recycled.

#### *Future Commitments*

Rockwell Collins is working to increase recycled materials used, reduce total solid waste, reduce energy use, and reduce water use. By 2004, the facility will:

- **Increase recycled materials used** from zero to 30,000 lbs by purchasing recycled paper and by looking for additional recycled materials to purchase.
- **Reduce total solid waste** by 11,647 lbs by increasing the types of materials to be recycled.
- **Reduce energy use** by 700,000 Kwh through expansion of the current environmental management system, and through adding an Energy Star Purchasing program.

- **Reduce water use** by 1 million gallons by installing water-saving fixtures and through reduced lawn-watering.

## COMMUNITY OUTREACH

The facility has a current system in place to respond to community concerns and has a brochure available to discuss their environmental management system. The facility contacts the public through telephone calls and meetings with city officials, such as the area fire department. The Annual Performance Report will be available through brochures and on the facility web site at [www.rockwellcollins.com](http://www.rockwellcollins.com)
